SWB—PMS

To Whom It May Concern,

Attached is a revised EPA Form 8700-12 for Koch Nitrogen Company located at 3892 Berm Highway in East Alton, Illinois, 62024. Koch is submitting the revised form to correct the company name, address, and facility contact due to organizational changes within our company.

Koch is also changing the type of regulated waste activity from Small Quantity Generator to Conditionally Exempt Small Quantity Generator. No regulated waste activity takes place at this facility other than small quantities of parts washer solvent removed by Safety Kleen Corporation on an intermittent basis. The quantities involved are less than 100 kg/mo (220 lbs.). Solvent removal manifests are available upon request.

Please contact me at (618) 251-5964 if I can provide further information or clarification.

Sincerely,

Dennis Ferguson  
Terminal Manager

c: J. Norvell (Regulations Coordinator)
